As of March 31, 2021, Global Partnerships Impact-First Development Fund, LLC (IFDF) had active investments across 5 initiatives, facilitating access to opportunity in livelihood creation, health, and housing. Fund investments during the first calendar quarter included a loan to a partner in Tanzania, broadening opportunity within a new country for IFDF. The Fund continued to invest in social enterprises that serve people living below $5.50 PPP/person/day. Fund concentration in women and rural-centered initiatives contributed to strong outreach to both female (78%) and rural (66%) clients, who tend to be disproportionately excluded from access to opportunity. Since Fund inception, IFDF investments have impacted an estimated 1.3 million lives, including 92k impacted during the first calendar quarter. Global Partnerships (GP) funds targeted, mobile-based surveying known as Lean DataSM to better understand if and how those lives are improving. As of March 31, 2021, GP had completed Lean Data surveys with 6 of the active partners in IFDF, speaking with 2,195 clients across 4 countries and 2 initiatives. While the types of outcomes vary by initiative, 92% of surveyed clients reported improved quality of life as a result of their engagement with IFDF partners.4
